## First Communion Class At St. Anthony's

Raymond Rhode, Photographer

Twelve boys and ten girls received their First Holy Communion at St. Anthony of Padua Church during the 8:30 Mass on Sunday. It was an impressive sight to see the youngsters march in procession into the church, led by the cross-bearer, Allen Pilegi, and the altar boys, Richard Brandoli, Michael Scafuri, Kurt Raschi, and Father Dominic Russetta, CPS, the celebrant of the Mass.

At the time of Holy Communion, during the Mass, each child,

accompanied by his or her mother and father, approached the white-draped altar rail and received the Host, for the first time in their young lives. Following the Mass, accompanied by Mother Mary Amadeus, of the Ursuline Order, the children proceeded to the church hall where a Communion Breakfast was served in their honor.

The First Communion Class is as follows: William Balboni, John Balderelli, Raymond Caresia, David D'Agostino, Martin Davilli, William Hannon, Rich-

ard Mastroianni, Charles Pertusi, David Rolandini, Ernest Serra, Gary Suffriti, Fred Waterman, Kim Marie Bassani, June Ellen Brandoli, Geraldine DePalma, Kathleen Field, Theresa Losito, Sally Lovotti, Debra Pilegi, Linda Pisano, Marie Withee and Karen Mabrey.

The Children's Choir, directed by Alfred Mutti, sang during the Mass and was accompanied by Mrs. Joanne Beltrandi. The Assistant Priest at St. Anthony's Church is Father James Cunningham, CPS.

## AHS Band Receives Good Festival Rating

Agawam High Band received good rating for playing next to highest level of difficulty at Music Festival in Willimastown.

For the first time this year bands were required to play within a class of difficulty from Grade I (easy beginners, up to Grade VI, most difficult, professional level). The Agawam and Minnechaug bands were placed in the auditorium to be compared with all of the larger high schools of Western Mass. (including many twice the size of Agawam) while the rest of the Valley Wheel schools played in the gym along with the smaller schools of the area. Three judges made separate ratings in each of the halls.

Junior High groups were in still another hall with their own set of critics.

Of the 35 groups in the Festival only two played in Grade VI difficulty; they were Technical and West Springfield. Ten schools played music in the Grade V level including Agawam.

The judges rated each group from 1-5 (within their Grade level) on the following basis:

1—Superior . . . The best conceivable performance, worthy of the distinction of being considered outstanding Rating could be compared to a percentage mark of 95-100.

2—Excellent . . . An unusual performance in many respects but with minor defects that preclude the highest rating; comparable to a percentage mark of 87-94.

3—Good . . . A good performance showing accomplishment and promise but lacking in one or more qualities; rating could be compared to a mark of 80-86.

4—Fair . . . An average performance, but not worthy of a higher rating because of basic weakness in some fundamental factors; comparable to a mark of 75-79.

5—Below average . . . Much room for improvement.

(The actual performance on the stage at the time of the festival is the only factor which should be considered in determining ratings.)

In addition to ignoring the size of school from which the band comes, they were not to consider the amount of school time given each group for its rehearsals. (A survey is being compiled from the festival to consider how these factors affect the ratings of groups.) Many schools have four scheduled rehearsals a week on school time with no conflict of activities.

### On the lawn WITH LARRY LAWRENCE

I read an article in Readers Digest which said the old Burma Shave signs along the highway have gone for good. Motorists nowadays travel too fast for them. But that doesn't mean that all advertising jingles have vanished. Just after I read the Digest article I saw the following in a garden department:—

Our lawn's a carpet. All the weeds  
Have met their Waterloo!  
Every time we feed we weed—  
with  
Turf Builder Plus 2

What's more, there was a note underneath offering \$5 for every jingle used on the same subject. And you may remember that Burma Shave used to buy jingles, too. That was part of the fun. We all thought we could write a better one.

In case you're wondering what kind of stuff Turf Builder Plus 2 maybe, the quickest explanation is to say that it is Scotts newest feed-and-weed product. It gives the lawn a regular feeding and not only clears out dandelions, plantain and other rosette type weeds but also gets rid of those pesky vining weeds such as chickweed, clover and the like. So you see it's really THREE products in one. Your Agawam dealer —

## Bishop Weldon To Open Annual Charities Appeal

For the seventh consecutive year His Excellency, Bishop Christopher J. Weldon, D.D., Bishop of Springfield, will launch the annual Appeal for Catholic Charities for the Diocese with the celebration of the television Mass, "Chalice of Salvation," in the Chapel of Christ of the Airwaves, at WWLP-Channel 22, Sunday, May 16, at 10 a.m. Bishop Weldon will preach the sermon during the Mass. After Mass he will take part in the customary interview with Father Fidelis Rice, C.P., Producer-Narrator of the program, in the aims and objectives of this year's appeal. Father James E. Cronin, Assistant Director of the Appeal, and the Right Reverend David J. Power, Director of the Appeal, will act as Chaplains to the Bishop.

Has Completed Fifteen Years  
In the Diocese

Recently Bishop Weldon completed his 15th year as Bishop of Springfield. During this time

there has been a marked period of growth and expansion, especially in institutions and agencies devoted to charity. Before his appointment as Bishop of Springfield, Monsignor Weldon was Director of Charities for the Archdiocese of New York. Immediately after his arrival in Springfield, he began a survey of needed institutions and agencies. His first big undertaking was the building of Our Lady of Providence Home for Children, in West Springfield. The new Providence Hospital, in Holyoke was planned and built; the Guild of the Holy Child, in Westfield; Our Lady of Lourdes School of girls, just opened in Springfield. A new wing has been added to the Farren Memorial Hospital, in Montague City. Other additions and improvements have been accomplished in several institutions. This Annual Appeal is conducted completely by volunteer workers, so that everything received goes to the works of charity.

### TODAY'S AGRI-FACT

Back in the 18th century, according to Lou Webster, asparagus was moved from its habitat on the shores of Italy to European gardens. It was a seashore plant and very tolerant of salt so that some of the early gardeners in America used salt to kill grass and weeds in asparagus beds. That made salt our first commercial herbicide and the old-timers thought salt made the asparagus taste better.

## Vacation Bible School Will Start June 21

The two-week period beginning June 21 and ending July 2 has been announced for the Vacation Bible School sponsored jointly by the Agawam Methodist and Feeding Hills Congregational Churches. Bible School will be held in the Congregational Church Educational Building on North Westfield Street, and will be held earlier this year in the hopes that the earlier date will enable children and teachers to attend before family vacations begin.

Co-directors are Mrs. Richard Dutton and Miss Florence Blish, who have announced registrations will be accepted at the Congregational Church on Saturday, May 15 from 9:30 to 11 o'clock, and at the two participating churches on Sunday, May 16 for all children up to and including those who will enter grade seven in the fall.

If you are interested in registering your child for this course, which will include religious education as well as crafts and recreation periods, please keep these dates in mind.

Registration will be limited and must be made before the May 16 deadline so that proper materials may be ordered for each child. This year a nominal fee (\$1.50 per family) will be charged at the time of registration to make it easier for those who would like to send more than one child from a family, and to help defray the cost of materials.

Teacher recruitment is also under way and anyone desiring to help out in either a teaching capacity or as an assistant may con-

tact either of the directors or Rev. Arthur Sweeney or Rev. Kenneth Thornton.

## Farm Jobs Call

Washington

The United States Government, with an assist from a dozen sports personalities, has launched a drive to recruit 20,000 high school boys to work on the nation's farms this summer.

Secretary of Labor W. Willard Wirtz said the program was aimed at two problems—the nation's high summer unemployment rate among youths, and a shortage of farm labor caused by sharply restricting the importation of foreign workers this year.

The high school drive, called "A-Team," was announced at a news conference by Mr. Wirtz, Secretary of Agriculture Orville L. Freeman and Stan Musial, chairman of the President's Council on Physical Fitness.

Jim Brown, star fullback of the Cleveland Browns, and New York Mets pitcher Warren Spahn, also were present to put in a plug for the program as a good way for high school athletes to keep in trim during the summer.

The Labor Department is contacting the principals of 17,000 high schools in 26 states to spread word of the program.

The youngsters will be paid the going rate for farm work, generally about \$1.25 or more an hour.

## Seach Goes On

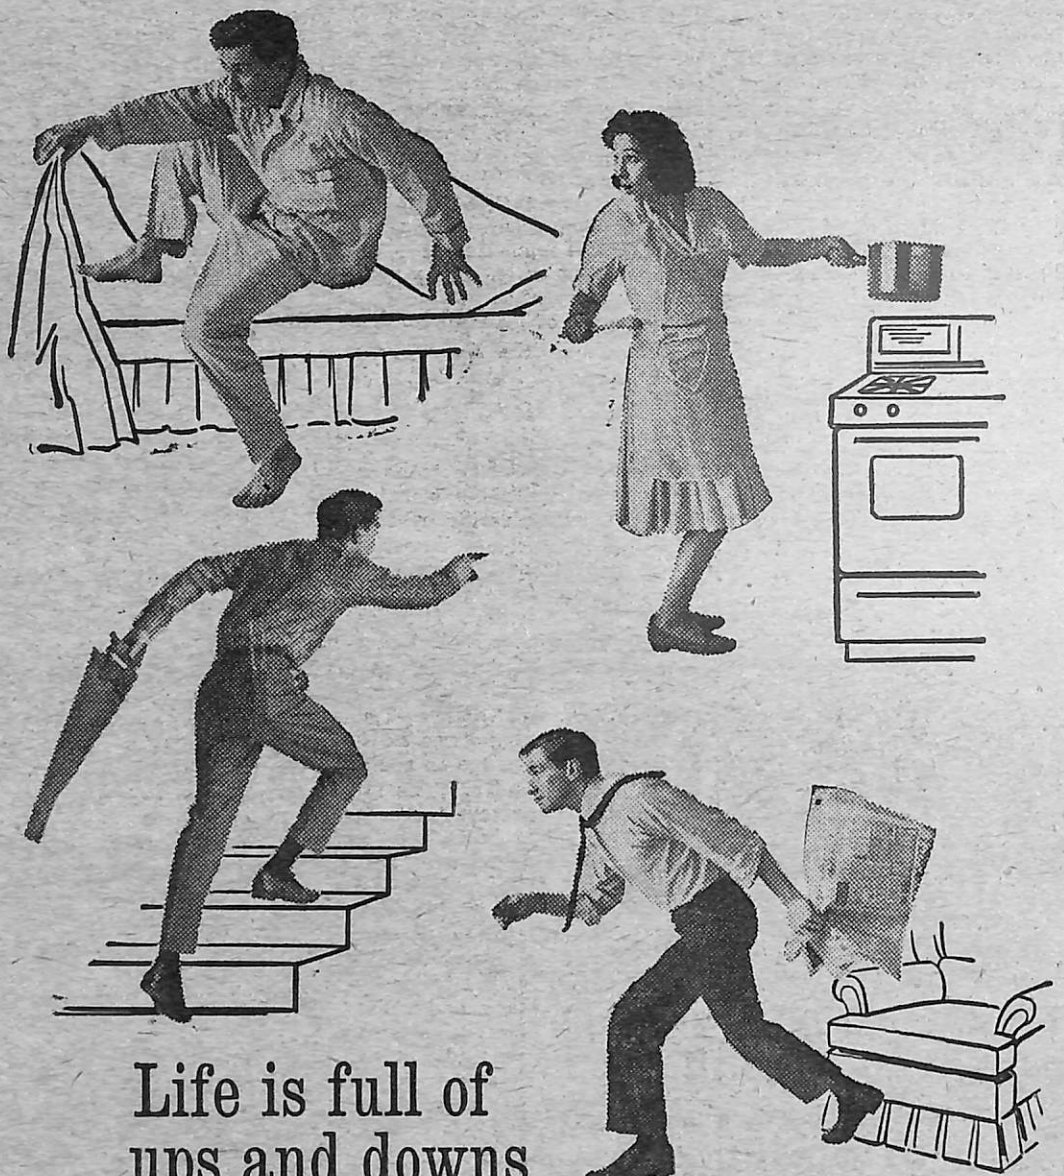

Flensburg, Germany

Twenty years after the collapse of the Nazi Third Reich, the German Red Cross is still working on more than a million queries on the whereabouts of citizens who disappeared in World War II.

A spokesman said the fate of 197,000 civilians and 8100 children deported after the Nazi capitulation remains unanswered.

The German Red Cross is checking 1,200,000 requests asking for information on persons who disappeared in the final maelstrom of war.

Since the Nazi surrender it has handled 8 million queries, providing answers for every fourth request.

## SPORTSMEN'S CORNER

By Bill Chiba

The North West branch of the Miramachi River, New Brunswick, Canada, was running four feet lower than last spring, and a person could look down and see the rocky bottom in the clear water. This proved to be ideal conditions for Atlantic spring salmon fishing.

The Island View Lodge, located on the banks of the North West, was filled to near capacity with "sports" from Conn. and Mass. The Connecticut contingent consisted of the following anglers: Mario Canapari, John Pagani, George D. Kowalsky, Walter J. Godet, Edward Wrath, William Villa, Chuck Sampson, and Charles J. Canapari. Massachusetts "sports" were Al Santinello, Joe Dubrey, and this writer; plus Hy Mason, Tex Milene, and Matt Cooper of Boston. Dan Shea, and Joe Price of Windsor, Conn., rolled into the lodge later in the week. Thus the house was full, and the searching for guides by our host, Fred Yankus, proved to be quite a chore. Some of the anglers had to obtain permission to fish by themselves, because of the lack of competent guides.

### Bad Situation

The fishing pressure has increased to phenomenal proportions in the last two years. A survey conducted by this writer concerning the guide problem and its effect on the local residents brought forth a situation that borders on the ridiculous. There is located on the Little South West, and the North West Rivers within a twenty-mile stretch 16 outfitters with accommodations for 200 sports. It was impossible to ascertain the number of anglers boarding in private homes, and campers in the area. It probably would be safe to estimate

## Miramachi Whoppers

Bill Chiba, outdoor editor, is holding two of the many Atlantic Salmon caught while fishing the Miramachi River, New Brunswick, Canada. The largest fish weighed 14½ pounds, the smaller 7 pounds.

another 40. The law in New Brunswick requires one guide to one angler per boat, and one guide to three anglers fishing from shore. Spring fishing for "slinkys" is done from boats, while "bright salmon fishing" later in the year, is strictly from shore. It is safe to say, with the Miramachi River producing as it is, that within the next ten years the number of "sports" flocking to the area will double. Trying to find 200 competent guides to accommodate the like number of anglers for the peak week of salmon fishing is similar to trying to find the proverbial needle in the haystack. The government of New Brunswick should get on top of the situation immediately for if they fail to do so the revenue from their fishery will likely take a sharp drop within the next ten years instead of increasing.

### Fishing Magnificent

I arrived at the lodge Thursday night, so was able to be on the river early Friday morning. I am not exaggerating when I say that I stopped counting after having hooked and released 29 grilse ranging from four to six pounds that morning. I caught fish til my arms ached. Everybody caught fish every day they fished. I accompanied Nick Karas, free lance writer and ex-True Magazine staffer, who was on assignment to do a story on spring salmon fishing for True, one afternoon way up river where we used wadders and boots. I fished one hole, using a brown dace fly, and landed 12 grilse and two salmon in three hours of fishing. This is fabulous fishing in anyone's book. Nick shot all the pictures he needed, and I took movies, slides and black and whites galore of fish jumping, sulking, and thrashing trying to spit out the fly. Try it some spring and you will return for some of the same the next year.

It's not who is right, but what is right, that is of importance.—T. Huxley.

## Record Catch

### NICK ZUCCO

Nick Zucco of Suffield St., Agawam, is pictured above with his record catch, a 42-lb. cod. Nick broke his line pulling it in aboard the May E 2, sailing under Captain Perkins, last Saturday at York Beach, Me. This is Nick's second prize catch having captured a 38-lb. cod last year.

## Same To You!

"Keep well!" That benign send-off—no less sincere because routinely uttered—is, heard many times a day in this health-conscious age.

For most of us the odds in favor of living up to the admonition get better all the time. Vast improvements in general hygiene, nutrition, and disease prevention, revolutionary advances in drug development, medical practice and surgery, have been registered in our own time. At least in the more solvent areas of the world, and even among some of our poor-but-not-quite-destitute relatives, it's easier to stay healthy than at any time in the past.

As a result, more people live to a ripe age, dodging or repulsing disease bugs that once slew their tens of thousands. Since 1930 the average life expectancy in this country has increased by 10 years. And improved medicine, psychology, and social services help make those extra years worthwhile.

A rosy picture? Yet—but you'll find there's a catch in it if you expect those attractive health-manship goodies to fall into your lap just like that. You can still get sick in any number of ways without half trying. Short-term or acute illnesses, nearly two-thirds of which affect the breathing system, are suffered by Americans at the average rate of twice a year per person, the National Tuberculosis Association reminds us.

And some of the long-term, potentially fatal diseases—TB, chronic bronchitis, emphysema, cancer, heart ailments, and others—can develop without making their presence felt for a long time.

Want to get your share of the increased health dividends? Want to be a god neighbor and carry out your friends' instructions to "keep well"? One way is to remember your need—like everybody's need—for a regular medi-

## WEEKLY STAMP COLUMN

Most famous postal mistake in the United States goes on exhibit at the World's Fair Post Office and will stay on view for three months.

A copy of the 24-cent airmail stamp issued in 1918 with a picture of an airplane printed upside down will be displayed along with the original die proof of the stamp, proof sheets of the red border, blue plane, and die proofs of the 6-cent and 16-cent stamps that were also issued as part of the series.

Because materials on display are irreplaceable, special security precautions, including a 24-hour guard, have been arranged. Information concerning the delivery of the display to New York are not being divulged.

The blue-and-red airmail stamp on display is one of 100 stamps with an inverted airplane purchased by a Washington, D. C. stamp collector, May 13, 1918, at a post office stamp window. This was the first day of sale for the country's first airmail stamp.

The World's Fair postal installation is an active post office which daily handles about 250,000 pieces of mail generated at the Fair and from Flushing, N. Y. The post office is a branch of the Flushing Post Office.

## SOCIAL

## SECURITY

### Questions and Answers

**Q.** Why do you always stress that a worker inquire before he retires? What special advantage is there in this?

**A.** You stand to gain in many ways. You find out exactly what records and papers you will need to go along with your claim for benefits. You have more time to get them. And, most important, you will get your first check on time.

**Q.** Will there be any delay in receiving my social security check when I change my address?

**A.** There should not be any delay if you notify your social security office of your plans early enough in the month you move. Should your address change be received late in the month, the check will be sent to your old address, but it can be forwarded, so make sure your post office has been notified.

**Q.** My wife and I receive a combined social security check. I am going to move but she will remain at the same address. Will we receive separate checks, with mine being sent to my new address?

**A.** Yes. Get in touch with your social security office or write to them to change only your address. Give your full name, your social security claim number and your new address.

**Q.** I started thinking about retirement the other day but haven't yet made up my mind. I am 69 and operate a 3-man barber shop. If I do retire, how much will I get from social security and when should I file my claim?

**A.** You should visit the social security office the first chance you get. The people there will estimate your benefit amount and they will also help you to file your claim.

It is a good idea to file now and get your claim approved. Then you can be sure of the amount before you retire.

**Q.** I am a self-employed farmer, age 67, and earned \$2,940 last year on the farm. My wife is 66. Can I get any social security for last year? If so, how do I go about filing for it?

**A.** There is a possibility that some benefits may be payable depending on the work you did last year and the amount of monthly benefits for which you and your wife are eligible. Get in touch with your social security office for the complete story and to file a claim. If you and your wife have proof of your ages, take it with you when you go to the social security office.

If you think twice before you speak, you'll never get into the conversation.

## At Your Service

DAVID C. GALLANO  
Director of Veterans Services

The main barrier to the smooth delivery of veterans pension, compensation and insurance checks is the tendency of the American veteran to change his place of residence.

More than half (53.9 percent) of all the veterans in the United States were living in a different house in 1964 than in 1955, according to studies of the Bureau of the Census.

In addition, one veteran in every ten was living in a different state.

This shift in location should pose no problem if the veterans would notify promptly the VA or their former Postmasters of their new address. They don't however, and, as a result, many VA pension, compensation or insurance checks are undeliverable and are returned to the Treasury disbursing office.

If the following month's check

is also returned, no further monthly mailing may be made. Thus the veteran has unintentionally cut off his own VA payment, until he later make his whereabouts known.

During January, 1965, the records at the VA Data Processing Center, Hines, Ill., show that more than 660,000 veterans changed their addresses. Some of them notified VA or their former Postmasters but 24,372 checks were returned for lack of delivery information.

This oversight often works hardship, especially when widows with small children are relying on the checks as their main source of income.

The Veterans Administration joins Postal officials in urging all veterans or families of veterans planning to move to arrange to notify the VA or the Post Office immediately of their new address.
